

August 8, 2005

Dear Sirs:

I am a recently licensed amateur radio operator who would like very much to advance in the hobby. I am looking forward to meeting new friends from around the world and being a kind of “ambassador” of good will and friendship. Being a physician I am a scientist at heart and enjoy learning about technology. I strongly support the elimination of the Morse requirement 05-235 and feel it will encourage other females to get involved in this hobby. Dr. Shelly Dranko KI4JKQ Acworth, GA.

Please act on this resolution as soon as possible.
